Contenido

- I Principales cultivos de Morelos
2009
- II Calendario y Siembras, según ciclo
agrícola
- III Principales cultivos de Morelos
respecto a la Producción Nacional
2008

Principales Cultivos de Morelos, 2009

Según superficie establecida y valor de la producción

Principales Cultivos, Cierre Año Agrícola 2009

por Valor de Producción y/o Superficie Establecida

- La Flor de corte ocupa el **7o** lugar en importancia en relación al valor de la producción, con una participación del 5.8% del valor total 2009.

- La Flor de Noche Buena ocupa el **11o** lugar en importancia en relación al valor de la producción, con una participación del 2.5% del valor total 2009.

| Cultivo | Sembrada | Cosechada | Producción | Valor Prod. | Participación % |
|--|------------------|------------------|--------------------|------------------------|-----------------|
| Caña de Azúcar | 17,252.2 | 15,411.7 | 1,846,360.6 | 760,675,999.0 | 19.1 |
| Maíz Grano | 32,916.1 | 32,508.1 | 150,300.7 | 455,883,110.0 | 11.5 |
| Sorgo Grano | 41,425.5 | 41,425.5 | 179,711.5 | 413,525,570.0 | 10.4 |
| Nopalitos | 2,769.0 | 2,745.0 | 274,300.0 | 304,255,000.0 | 7.6 |
| Tomate Rojo (Jitomate) | 2,056.0 | 2,056.0 | 67,093.1 | 290,828,820.0 | 7.3 |
| Aguacate | 3,392.0 | 3,254.0 | 31,442.0 | 278,853,000.0 | 7.0 |
| Flor de Corte (gruesas) y Pasto T (m2) | 1,363.1 | 1,361.1 | | 229,117,800.0 | 5.8 |
| Durazno | 2,077.0 | 2,058.0 | 21,364.0 | 203,187,100.0 | 5.1 |
| Cebolla | 2,053.1 | 2,053.1 | 61,653.0 | 157,860,800.0 | 4.0 |
| Tomate Verde | 2,450.7 | 2,450.7 | 34,176.0 | 140,226,600.0 | 3.5 |
| Noche Buena (Plantas) | 98.0 | 98.0 | | 99,992,000.0 | 2.5 |
| Calabacita | 983.3 | 983.3 | 15,848.6 | 68,185,825.0 | 1.7 |
| Ejote | 1,686.7 | 1,686.7 | 17,012.0 | 62,968,200.0 | 1.6 |
| Pepino | 986.9 | 986.9 | 17,847.2 | 60,908,160.0 | 1.5 |
| Arroz Palay | 1,419.4 | 1,405.4 | 14,036.0 | 60,528,100.0 | 1.5 |
| Resto de los cultivos | 12,408.3 | 11,947.0 | 140,296.2 | 391,255,198.0 | 9.8 |
| Total | 125,337.3 | 122,430.5 | 2,871,440.8 | 3,978,251,282.0 | 100.0 |

Notas: El cierre Agrícola, NO incluye la producción de planta de ornato en vivero.

Maíz Grano, incluye 5,529 ha. de Elote fresco, con una producción de 64,986 ton. y un Valor de la Producción de \$155,778,540.00

El total de producción no incluyen 5,846,000 plantas de Noche Buena, por la diferencia en la Unidad de Medida.

Nota: Flor de Corte incluye: Gladiola, Rosa, Nardo, Crisantemo, Agapando, Polar, Girasol y Pasto tapete (este último por la U. de medida en m2 e importante valor de producción)

- Con sólo 5,529 hectáreas de elote (20.2% de la superficie establecida de maíz grano), se logra el 51.9% del Valor total de la Producción en grano.

El cierre Agrícola, No incluye la producción de planta de ornato en vivero.

Principales cultivos de Morelos respecto a la Producción Nacional 2008

De acuerdo a los resultados publicados por la instancia oficial: el Sistema de Información Agroalimentario y Pesquero (SIAP), dependiente de la SAGARPA, la competitividad Nacional observada en los 21 cultivos más importantes de Morelos (incluidos en bloque la Flor de Corte) por su valor de producción y/o superficie establecida, abajo detallados, son cultivos de gran viabilidad productiva, comercial o de autoconsumo; los datos estadísticos mencionados, refieren al año agrícola 2008; es decir, la suma de otoño invierno, primavera verano y perennes, con el propósito de conocer la superficie total anual establecida y su valor de producción; valor que aporta el estado de Morelos al Producto Interno Bruto Nacional, en el sector primario.

Es también relevante señalar, que el cierre agrícola 2008, no registra datos de la actividad productiva de planta ornamental en viveros (y ningún otro cierre), y que representa una inversión de suma importancia, toda vez que nos consideramos el más importante productor en maceta del país.

Los datos de los cierres 2009 por estados, aun no han sido liberados, en razón a los distintos calendarios de siembras y cosechas; así mismo, a la complejidad de integrar estadísticas de superficies nacionales.

| Lugar Nal. | Cultivo |
|------------|-----------------------------|
| 1 | Noche Buena (Planta) |
| 2 | Nopal Verdura |
| 2 | Aguacate |
| 2 | Ejote |
| 3 | Pepino |
| 4 | Maíz Elote |
| 5 | Durazno |
| 6 | Sorgo Grano |
| 6 | Calabacita |
| 7 | Cebolla |
| 9 | Tomate Rojo (Jitomate) |
| 10 | Tomate Verde |
| 12 | Caña de Azúcar |
| 27 | Maíz Grano |
| 8 | Arroz Palay |
| * | Flor de Corte (7 cultivos) |
| * | Viverismo (sin información) |

De acuerdo a lo anterior y en consideración a las dificultades que presenta el estado en materia de competitividad territorial, respecto al nacional, es importante apostarle a cultivos que presentan oportunidad por su valor comercial, demanda y reducida superficie requerida para su producción.

Dirección General de Planeación

Comportamiento de la producción de
CAÑA DE AZÚCAR

según Superficie Sembrada respecto a la producción nacional
Con datos del cierre nacional de la producción 2008.
